

Ideas serving agency goals or originating within the agency structure

Ideas originating within programs (other than Public Policy) and in the community

Legislative & Policy Agenda

- Issues related to agency mission, goals, and strategic plan
- Institutional policy *position* adopted by the Board of Directors
- Work done by the public policy department on behalf of the whole agency

Community & Program Issues

- Issues originated by the community, to which we are linked through our community-based programs
- FCS provides technical assistance to community members, who are pursuing their own issues to achieve community building and leadership development goals
- The Public Policy Department's role is to provide technical assistance to the program staff who are working with the community on public policy issues
- These issues usually do not need board approval, but there will be internal coordination with public policy staff
- These issues will generally be reviewed by the program committee of the board, as part of each program's review
